

SignUpStar™

Registering attendees for your events is now as easy as posting an event to a calendar and letting your customers do the work.

SignUpStar™ is an easy-to-use, cost effective way to let your customers sign up for your events. Everything you need to manage the process is included – even an online payment option.

SignUpStar™ is event registration automation the easy way for businesses, associations, and churches.

SignUpStar™ is a web-based event registration system that provides one shared database for all of your event rosters. You'll have all the information you need at your fingertips...at the office, at home, on a trip, coffee cafe -- wherever there's a connection.

All your roster information is recorded instantly and becomes available to all authorized users. If a staff member leaves your company, simply change the password, and someone else can carry on the work. You will never risk the loss of your customer database through an employee departure!

Your valuable data is always safe, yet always available. You can download your customer information at any time. Stored and backed up on state of the art servers, **SignUpStar™** provides the same high-level security used by on-line banking sites.

- **Nothing to install or update** -- **SignUpStar™** operates over the internet using your Microsoft Explorer® or Netscape® browser.
- **Flexible administrator configuration** -- Configure your subscription to match your work flow. **SignUpStar™** is designed so that you can control user data entry and assign the right permissions to the right people. We increase your productivity while safeguarding your company's valuable customer information.
- **Versatile management capability** – Roster management, optional online payment processing, attendee notification by email, staff scheduling for events and more are all fast and efficient, and right at your fingertips.
- **One storehouse for all of your customer data** – Keep your customers happy! Flexible and easy to use, the roster for every event is under your direct control. Create a mail/merge for Microsoft Word®. Build valuable reports in Microsoft Excel®. This is registration management that really works!
- **Easy to use** -- The most intuitive solution on the market today, **SignUpStar™** helps customer service and customer support teams do a better job of taking care of existing customers and winning new ones.

Star-Tech offers a wide range of web-hosted contact management tools for the growing business. All are modestly priced, including **SignUpStar™**. Increase your productivity with a call to Star-Tech today!
